

FEATURE COMPARISON MATRIX

Web Conferencing Product Comparison

InterCall® offers a range of web conferencing solutions designed for use with different types of meetings: from less formal on-the-fly get-togethers to carefully structured company-wide conferences or training sessions.

InterCall Unified Meeting®

Let people see what you are talking about and collaborate during your online meetings with our proprietary web conferencing product. You get audio, web and video conferencing in a single system that integrates with everyday business tools, like calendaring systems and instant messaging clients, so starting and joining meetings is done just with a click of the mouse. The best part is that all of this comes as a service that InterCall manages for you.

Microsoft® Office® Live Meeting, *offered by InterCall*

Host interactive, collaborative meetings by showing presentations, software and web sites. Office Live Meeting offers unique features, such as muting lines and dialing additional participants from the web interface, Microsoft Office integration, custom slides, reporting tools, recording and printing to PDF. It's a flexible tool that can be configured to suit the needs of your conference—no matter what size or type

Microsoft® Lync Online, *offered by InterCall*

A next-generation cloud communications service that connects people in new ways, anytime, from anywhere. Lync Online provides intuitive communications capabilities across presence, instant messaging, audio/video calling and a rich online meeting experience including PC-audio, video and web conferencing.

Cisco WebEx™ Meeting Center, *provided by InterCall*

Engage your participants by sharing a PowerPoint presentation, demonstrating software, showing web site navigation, asking polling questions and transferring files. The integration with Reservationless-Plus® lets you control the audio portion of your meeting online. WebEx Meeting Center provides the ultimate collaborative platform for your day-to-day business communication needs.

Cisco WebEx Training Center, *provided by InterCall*

Deliver live, interactive training sessions with features specifically designed with the virtual classroom in mind. In addition to sharing presentations or demonstrating applications, you can conduct quizzes online, separate trainees into work groups for collaborative projects and host post-training tests for follow-up.

Cisco WebEx Event Center®, *provided by InterCall*

Get everything you need to manage your online marketing seminars. WebEx Event Center gives you tools to invite participants, manage their registrations, prepare for your event, share your presentation and follow-up with your attendees.

Cisco WebEx Support Center, *provided by InterCall*

Let your technical support team diagnose and resolve customer problems online, just as efficiently and effectively as they would on-site. Customer files can be transferred for off-line analysis or technicians can actually run customers' desktops and download patches or updates to the their computers.

Adobe® Connect™, offered by InterCall

Captivate your audience with interactive online meetings and virtual classroom experiences that are just a click away. Make your point with powerful multimedia tools, including integrated audio, interactive simulations and breakout rooms.

IBM® LotusLive: Meetings, offered by InterCall

Use this powerful, yet simple tool for securely displaying presentations and sharing real-time applications on the Internet. It provides the most common features needed for web presentations and requires minimal training and support. With LotusLive: Meetings, you can quickly share anything on your computer with people anywhere in the world.
