## Reduce Training Delivery Costs & Create Business Opportunities

### Live Online Training

When it comes to training programmes, maximising reach, frequency and timeliness is key to sessions' success. With TrainingCentre powered by WebEx™ you can deliver live, interactive training to employees, partners, and customers anywhere, anytime through a standard web browser. By bringing the training to your attendees, you can reach more people more frequently while significantly reducing training delivery costs.

TrainingCentre provides all the tools to make an online training experience as effective and engaging as the physical classroom. Conduct interactive application demos, share presentations and documents, incorporate multimedia content and record any training session for later playback. Structure and manage live interaction with breakout sessions, a hands-on lab, polling and testing, instant feedback, chat and Q&A. Your live, online training programme can be deployed, quickly and economically, without complex installation costs and a high upfront investment in hardware and technical staff. You are free to focus on what matters most – delivering high quality, time-critical training to ensure employee, partner and customer success and satisfaction.

### Rely On TrainingCentre

- **Present** slides to make your meeting more memorable.
- **Deliver** a rich and engaging classroom experience using just a web browser.
- **Rapidly** scale your training programmes to reach more people, more frequently.
- **Ensure** employee, partner and customer satisfaction with timely, convenient delivery of training on new product releases, corporate initiatives and critical skills.
- **Dramatically** reduce training delivery costs including travel, accommodation and room hire.

### TrainingCentre Features

**Information Sharing** Leverage existing information by sharing multiple documents and demonstrating how to use applications by sharing and annotating on them in real time. Permissions-based remote control lets attendees try it themselves.

**Hands-On Lab** Optimise existing infrastructure investments by connecting remote attendees with remote computers, applications and simulations during a live training session – anytime, anywhere.

**Breakout Sessions** Promote active learning by conducting multiple, simultaneous small group, collaborative activities. Trainers can “walk around the room” and see how each group is doing.

**Multimedia Training Content** Engage your attendees with PowerPoint animations and transitions, as well as complex multimedia objects like Flash, 3D objects and streaming media.

## Reduce Training Delivery Costs & Create Business Opportunities

**Instant Feedback** Gain valuable feedback by visually depicting individual responses to trainers' verbal questions.

**Q&A Boost** interaction with a threaded Q&A feature that identifies learner questions and corresponding responses.

**Multiple Panelists** Increase training staff productivity by enabling multiple trainers to collaborate on sessions from different locations.

**Video Integration** Allow attendees to see a trainer during a live session using a web camera.

**Microsoft® Outlook® Integration** Leverage existing enterprise systems to streamline scheduling processes.

**Testing and Grading** Assess comprehension, automatically track individual's performance and share correct answers within a session. Leverage web-based testing libraries for comprehensive pre- and post-session training.

**Polls and Surveys** Measure session effectiveness and gather feedback for future sessions.

**Registration and Reporting** Simplify session registration and easily track attendance.

**Record and Playback** Record live training sessions for reuse and review. Recordings can be streamed within a live session or uploaded for attendees to play back at their convenience.
