

# Intelligent Solutions

From the World's Leading Conferencing Specialist

## Global Conferencing Solutions

In today's global environment, businesses need to find ways to keep the lines of communication open regardless of geographic barriers or time zone differences. InterCall conferencing is the answer. We provide end-to-end solutions that are reliable and consistent on a global scale.

### Ideal For Multinationals To Small Businesses

Multinational companies benefit from InterCall's global teams, rollouts, billing, and reporting. No matter where they are located throughout the world, your employees will have the same conferencing experience.

Small to mid-size companies take advantage of InterCall's ability to invoice in local currencies along with providing language support and local representatives to ensure a positive experience for participants throughout the entire call.

### The Perfect Balance

InterCall strikes that perfect balance between consistent service and localized support in every aspect of conferencing including: global coverage, expertise, services, capacity, dependability, support, financial stability and reporting.

**Global Coverage** - With operation centers and sales offices in England, the US, Canada, Ireland, Germany, France, Japan, Hong Kong, Singapore, Australia and New Zealand, InterCall has the global scope to facilitate worldwide communications coupled with the local presence to understand your specific business environment.

**Global Expertise** - InterCall serves more than 120,000 conference leaders around the world – making us true experts in the global conferencing marketplace.

**Global Services** - InterCall offers a complete range of solutions; including Reservationless, Event, Web and Video conferencing services that are consistent regardless of where the conference is being hosted. InterCall® also offers a variety of methods to connect international participants to any type of audio conference call, including International Toll-Free Service (ITFS), International Dial-Out, Toll Dial-In and International Links.

**Global Capacity** - With more than 40,000 worldwide conferencing ports, InterCall has the capacity to handle any type of conference that your business requires. No call is too large or too small.

**Global Dependability** - InterCall's networks operate at a predictable up-time of no less than 99.9% ensuring that conferencing services will be available whenever your business needs them. Our service levels are consistently rated the best in the business.

**Global Support** - InterCall's global team will be there to provide you with quality, professional services - whenever and wherever you need them. Not only is InterCall able to bill services in your local currency, but our team is made up of individuals who can speak the local languages and understand the culture.

**Global Financial Stability** - InterCall, a division of West Corporation, is part of a large reputable corporation. Our pristine record of outstanding financial performance and above average growth means that InterCall will be here to keep your business communicating, no matter what.
